

SHRAVAN BOLOOR

Full-Stack Software Engineer | Web Applications | Fintech

[Phone](#) | [Email](#) | [LinkedIn](#) | Udupi, Karnataka

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer with 5+ years of experience designing and developing scalable web applications. Proven expertise in React, JavaScript, API integrations, and database architecture. Track record of delivering 11+ projects for fintech, SaaS, and enterprise clients. Strong technical foundation combined with excellent client management and collaborative problem-solving skills. Worked on personal projects and freelance projects.

CORE COMPETENCIES

- Frontend UI/UX Development
- Fintech Applications
- Database Architecture
- Payment Gateway Integration
- Client Relations
- Full-Stack Development
- Agile Development
- API Design & Integration
- Automation.
- Team Management.

TECHNICAL SKILLS

- Frontend: TanStack, React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design, Shadcn, Tailwind.
- Backend & Databases: Supabase, Bubble.io, Xano, Supabase, SQL, Database Design & Structuring
- APIs & Integrations: REST, Payment Gateway Integration, Xano, Django, GraphQL
- Tools & Platforms: Bubble.io, AppSmith, Zoho CRM, Git, VS Code, Razorpay, Shiprocket.
- Soft Skills: Client Management, Team Leadership, Problem Solving, Project Delivery, Communication.

PROFESSIONAL EXPERIENCE

Cake Capital | Software Engineer

December 2023 – Present

- Architected and developed a comprehensive payment portal using Bubble.io, enabling users to add funds and manage card details with secure transaction handling
- Integrated multiple APIs (Xano and Django) to support complex backend workflows and real-time data synchronization.
- Built a react application from scratch using shadcn components and also integrated django backend to it.
- Developed mobile-responsive interfaces for cross-platform accessibility, improving user experience and engagement.

IPANGRAM | Software Engineer

September 2023 – December 2023

- Engineered a Zoho CRM plugin, extending platform capabilities for client-specific business processes
- Implemented API integrations using Bubble and custom automation tools to streamline client operations

Starlly Solutions Pvt Ltd | Software Engineer

February 2023 – September 2023

- Developed responsive web pages using Bootstrap and JavaScript, ensuring cross-browser compatibility and performance optimization
- Built reusable React components and template pages for multiple SaaS projects, improving development velocity
- Executed API integrations for third-party services, enabling seamless data flow and enhanced application functionality

Surya Digitech Private Limited | Software Engineer *December 2020 – February 2023*

- Engineered 11+ full-stack web applications using Bubble.io, handling front-end design, database architecture, and backend logic
- Implemented complex features including secure payment processing, real-time messaging, video calling integration, and automated email notifications
- Developed applications using AppSmith with JavaScript and GraphQL APIs, delivering enterprise-grade solutions

EDUCATION

B.E. in CSE | SMVITM, Udupi-

2016 – 2020 | CGPA: 6.25/10

12th Grade (PUC) | Vidyodaya, Udupi-

2015 – 2016 | Percentage: 85%

KEY PROJECTS & ACHIEVEMENTS

- College Details Management System – Designed database schema and built intuitive UI for student and course information management
- Logic Gate Simulation Tool – Developed interactive simulator for logic gate operations and digital circuit design
- Congestion Control Using ML – Applied machine learning techniques to optimize traffic flow and network resource allocation
- 11+ Fintech & SaaS Applications – Full-stack development across multiple industries with payment integrations and real-time features
